→Three times...../ four times....**

**B. PROJECT: 1.Task 1:**

***\*your report should include:***

- The aim of this report is to ....

***\*For question 1:***

- Most people seem to feel that...
- several/ 5/ many/ only one ... student/s  
said that/ told that/ suggested that....
- They made the following points.....

***\*For question 2:....***

***\*Plan about the best health care:***

- I would therefore recommend that we  
should/ we'd better/ we need....
- And we shouldn't ....

## **B. PROJECT:**

**2.Task 2: Present your findings to the class,  
your presentation should include:**

- 1- greetings.**
- 2- Introduction: name, be a representative of...**
- 3- Content of the report.**
- 4- plan for good health care.**
- 5- Conclusion**
- 6- communication: ask and answer.**
- 7- the end.**

## **B. PROJECT: A modal of representation:**

Good morning! My name is..... Today, I'm going to be a representative of my group to present the topic relating to the food we eat. The report also discusses about what and how we eat to have a good health care.

The answer for **the questions 1 and 2** is that in my group **several students** said that **their mother** often shops for food and prepares the meals in their family.... Now we move to **question 3**....

When we asked the question **about the food people often eat 4 students told that.... 2 students said....**

**5 students** said 'yes' when they **were asked if they had a lot of vegetable with their meals and 4 students** said 'no' .

The answer for **question 6** is that....

The **last question is about the times a day that people eat. 6 students** said that.... **1 person** told... **2 of them** liked to have....

From the figures of the report we come to the conclusion that we should..../ we should not...

That the end of my presentation. Thank you for your listening. Are there any questions for me?

*CONGRATULATION !*

**You have finished your  
representation.**
