SAMPLE

Hello everyone. Now I'm going to present the benefits of volunteering activities. First of all, doing volunteering gives us a chance of coming into contact with other teenagers with similar interests. In a club, we can share common interests and values, which strengthens our friendship. Besides, making more friends makes us more confident. Second, volunteering activities help us improve essential life skills such as time management skills, communication skills, teamwork skills. For example, we learn how to make a plan and manage time effectively; communicate with others and work in a group. Finally, a volunteer can gain a lot of life experiences. After volunteering activities, we learn how to deal with problems and situations by observing each other. Thus, we realise our strengths and weaknesses, which helps us decide our career path and orientation.
